

Quantitative Biology Summer Bootcamp at UCSD

<http://bootcamp.qbio.ucsd.edu/>

Are you fascinated by both biology and physics, and want to get hands-on experience and have fun doing it? Learn with experts at UCSD in the new field of quantitative biology!

When? June 26th - 30th, 2017. Full days Monday to Friday.

Where? UCSD Department of Physics.

What you will learn? Working with bacteria, microscopy, microfluidics, and data analysis.

Who should apply? Motivated and curious undergraduate students with minimum GPA 3.2, or 1st year graduate students, from any institutions in the greater San Diego area. Inquiries from any exceptionally motivated students (even high-school students!) are welcome. Students from under-represented minority groups are particularly encouraged to apply.

Fees? Free. Thanks to the National Science Foundation, we will provide everything, including meals, needed to complete the one-week course. Independent study credit possible.

Applications accepted until June 1, 2017

Please send your 1-page resume, including contact information, and 1-page description of your interest and motivation. Providing 1 or 2 letters of reference may increase your chance of acceptance. All application materials should be sent to the below address by June 1, 2017.

Any inquiries? Send an email to qBioBootcamp@gmail.com and check the website for updates at <http://bootcamp.qbio.ucsd.edu/>.
